## Lyofast MOS 062 D

Technical Data Sheet

## General information

Description

## Application

## Rotation

## Culture Information

## Technical Information

Lyofast MOS 062 D consist of specifically selected strains of Lactococcus lactis ssp. lactis and Streptococcus thermophilus. Lyofast MOS 062 D ensures a uniform and controlled production Cheddar, hard cheese and semi-hard cheese with round eyes (like i.e. Danbo, Swiss Tilsit). Moreover Lyofast MOS 062 D can be used in the production of fresh and soft cheese.

Sprinkle the culture powder directly into process milk under aseptic conditions ensuring that the culture is well dispersed by gentle stirring. The following may be used as inoculation guidelines:

| Product | UC/100 I | Product | UC/100 I |
| :--- | :---: | :--- | :---: |
| Fresh cheese | $0.5-2.0$ | Soft cheese | $0.7-2.0$ |
| Semi-hard cheese | $0.5-2.5$ |  |  |

The recommended rotations are Lyofast MOS 060 D, MOS 064 D and MOS 066 D.

Standardised laboratory acidification test is conducted in milk powder, reconstituted at 9\%, at defined temperature.
Acidification profile: inoculation level corresponding to 1 UC per 100 litres of milk.
Standard activity: expressed as time/pH relations: 6.5 hours $/ \mathrm{pH} 5.2 \pm 0.15$ at $34^{\circ} \mathrm{C}\left(93.2^{\circ} \mathrm{F}\right)$.

Data are obtained under standardised laboratory conditions, and consequently, should be considered as guidelines.

## Trait

Optimal temperature for growth
Scalding temperature
Acidification capability

## Result

$30-37^{\circ} \mathrm{C}\left(86-98.6^{\circ} \mathrm{F}\right)$
Max. $43^{\circ} \mathrm{C}\left(109.4^{\circ} \mathrm{F}\right)$
pH 4.2

## Microbiological specifications

| Assay | Result | Method (Reference) |
| :--- | :--- | :--- |
| Bacillus cereus | $<100 \mathrm{CFU} / \mathrm{g}$ | M10 (ISO 7932) |
| Coagulase positive staphylococci* | $<10 \mathrm{CFU} / \mathrm{g}$ | M 11 (ISO 6888-1-2) |
| Enterobacteriaceae | $<10 \mathrm{CFU} / \mathrm{g}$ | M 02 (ISO 21528-1-2-3) |
| Escherichia coli | $<1 \mathrm{CFU} / \mathrm{g}$ | M 27 (ISO 11866-1-2/IDF |
| Listeria monocytogenes* | Not detected in 25 g | M13 (ISO 11290-1-2) |
| Yeast and mould <br> Salmonella spp.* | $<10 \mathrm{CFU} / \mathrm{g}$ | M 03 (ISO 6611/IDF 94) |
| *Analysed on regular basis. Analytical methods are available upon request. | M12 (ISO 6785/IDF 93) |  |

## Safety information

Heavy metal analysis

## Safety sheet This product is not hazardous; therefore provision of a Safety Data Sheet (SDS) is not mandatory

 (REACH Art. 31).A Safety Information Data Sheet has been made as a voluntary presentation of certain information that may assist the user in the handling. The safety information is available upon request.

Sacco organisms are not genetically modified (GMO), in accordance to the European Directive 2001/18/EC.
This product does not require labelling with regard to the use of GMO, in accordance to Regulation (EC) No. 1829/2003, and Regulation (EC) No. 1830/2003.

## Allergens

## BSE/TSE status

## Other information

## Colorants

## Packaging

 informationStorage and shelf-life

The raw materials used are free of the following components and their products thereof: cereals containing gluten, crustaceans, eggs, fish, peanuts, soybeans, nuts, celery, mustard, sesame seeds, sulphur dioxide and sulphite, lupin and molluscs.

## This product contains MILK.

The list of allergens is in compliance with Regulation (EC) 1169/2011.

This product is considered safe with respect to bovine spongiform encephalopathy (BSE) or transmissible spongiform encephalopathies (TSEs) transmissions in accordance to Regulation EMA 410/01 rev. 3.

This product does not contain added colorants, in accordance to Regulation (EC) 1333/2008.

The freeze-dried culture is packaged inside waterproof and airproof pouches, consisting of three layers (in order, going inwards): polyester, aluminium, and polyethylene.
The packaging material used is food grade.

Cultures should be preferably stored, at $-18{ }^{\circ} \mathrm{C}\left(-0.4^{\circ} \mathrm{F}\right)$, or below.
Under these conditions and in the original sealed package, the shelf-life of the product is 18 months.

## Certificate of Lot's certificate of analysis is available upon request.
